

DCS COVID-19 INFORMATION

Updated 12/18/20

| Active Student Cases | Total Students Enrolled | Active Staff Cases | Total Staff Employed |
|----------------------|-------------------------|--------------------|----------------------|
| 14 | 6000 | 8 | 800 |

This table shows active cases at one point in time as of the date listed. For reference, also included are the approximate total number of students enrolled across all Davie County schools and the approximate total number of staff who are employed by Davie County Schools.

Positive cases in Davie County Schools go through thorough contact tracing by officials with the Davie County Department of Health and Human Services, who work in partnership with our district leadership. We adhere to their guidance, which varies because each case is unique. It is important to note that if you are identified as a close contact, you will receive immediate and customized information from the Davie County Department of Health and Human Services and/or someone from our nursing staff. Please understand that we cannot lawfully share any personal information about individuals due to HIPPA laws.

You will receive personalized communication should there be any concerns that could require you to take additional action.

We are committed to protecting the health and safety of every student and staff member. We will continue to work hard and take the appropriate precautions listed below. We ask for the partnership of each of our families to ensure we are all taking the appropriate precautions in and out of school buildings.

- Conduct daily screenings and temperature checks for staff and students
- Wear face coverings
- Social distancing whenever possible
- Frequent hand washing

Please visit back frequently to monitor our active cases and as always, please contact your school directly with any questions. Thank you for your continued support!
