JOINT MEETING**

**THURSDAY, SEPTEMBER 22, 2011 5:00 PM
DAVIE COUNTY SENIOR CENTER
278 Meroney Street, Mocksville, NC**

AGENDA

- | | | |
|-------------|---|-----------------------------------|
| I. | Call to Order | Chairmen Renegar and Jones |
| II. | Invocation and Pledge of Allegiance | Chairman Renegar |
| III. | Adopt Agenda | Chairmen Renegar and Jones |
| IV. | School Facilities History
Current Approved Project
RFQ for Facilities Study
RFQ for Architectural Services – Davie High School | Dr. Hartness |
| V. | Collective Vision of the BOE and BOCC for the
Future of School Facilities in Davie County for the next 5-10 Years | BOE and BOCC |
| VI. | Adjourn | Chairmen Renegar and Jones |

Questions for Discussion

1. What parameters would the BOCC like to see included in any future facilities recommendations from the BOE?
 - funding - tax neutral?
 - growth - student population targets?
2. If an identified project exceeds \$5M, what financing sources would the BOCC consider?
3. What would the BOCC consider to be an authoritative source on school capacity?
 - Third party comprehensive facility assessment?
 - Internal study?
 - Other?
4. How can the BOE help promote economic growth and economic development in Davie County?
5. The County currently has two parcels of land purposed for schools
 - 1. Farmington Rd site - +/- 53 acres (purposed for high school)
 - 2. Highway 158/Allen Farm – 30 acres (purposed for an elementary school). There is discussion about the Farmington Rd site being repurposed. Does the BOCC have any plans for the Highway 158/Allen Farm site?
6. Does the BOCC have a policy on unused land owned by the County?
7. If the BOE develops a long term facilities plan that maximizes current capacity and systematically addresses any growth through the renovation or construction of school facilities, would the BOCC accept and support such a plan?
